Professional Summary

Analytical professional with experience in data research, data validation, and reporting, currently working as an Analyst at eClerx. Skilled in SQL, Python, Power BI, Advanced Excel, and Tableau, with expertise in data cleaning, visualization, and dashboard development. Seeking to leverage analytical and problem-solving skills to deliver meaningful business insights in analytics-focused roles. Aspiring to build a career in Data Analytics, Business Intelligence, and Data Visualization.

Work Experience

Analyst

Coimbatore

eClerx

04/2026 - Present

- Performed data research, validation, and analysis to support business operations.
- Cleaned, verified, and maintained large datasets to ensure data accuracy and quality.
- Prepared structured reports and delivered insights to support business decision-making.
- Utilized Power BI and Excel to analyze operational data and monitor key metrics.
- Collaborated with cross-functional teams to improve data quality and process efficiency.

Education

Dr.N.G.P. Arts and Science College

M.Sc. Computer Science with Data Analytics

06/2024 - 03/2026

79 %

PSG College of Arts and Science

B.Sc Computer Technology

06/2021 - 04/2024

79 %

Skills

- Python
- Power BI
- Advanced Excel
- VS Code
- Data Reporting
- SQL
- Tableau
- MS Office
- Jupyter Notebook
- ETL

Languages

- Tamil
- English

Courses

Power BI

Simpleilearn

10/2025 - 10/2025

Mongo DB Basics

Mongo DB

07/2025 - 07/2025

Data Analytics with Python

Nxtlogic Software Solutions

05/2025 - 06/2025

AWS Cloud Practitioner Essentials

AWS

03/2024 - 04/2024

C Programming

KICE Infosystems

02/2022 - 05/2022

Internships

Data Analyst - QAROO India Private Limited

12/2025 - 04/2026

- Advanced Excel (data cleaning, pivot tables, charts, functions)
- SQL (queries, joins, data extraction)
- Python for Data Analysis (Pandas, NumPy, Matplotlib, Seaborn, Data handling)
- Power BI (dashboard creation, data modeling, DAX measures)

Artificial Intelligence - Corizo Edutech Private Limited

09/2024 - 10/2024

- Conducted data preprocessing, cleaning, and exploratory analysis to improve dataset quality and model performance.
- Built and evaluated machine learning models using Logistic Regression and Random Forest algorithms.
- Visualized analytical insights using Python libraries including Matplotlib and Seaborn.

Projects

Cryptocurrency Price Analytics & Volatility Insights

- Analyzed Bitcoin and Ethereum historical price data to evaluate daily returns, volatility, and market trends.
- Performed data cleaning, exploratory data analysis (EDA), and visualized insights using Python libraries.

Student Performance Report

- Developed an interactive Power BI dashboard to analyze student academic performance and identify trends affecting learning outcomes.
- Created KPI cards, charts, and filters to visualize subject-wise performance and support data-driven decision-making.

Cardiovascular Disease Prediction

- Built machine learning models using Logistic Regression and Random Forest to predict cardiovascular disease risk.
- Conducted data preprocessing, feature engineering, model evaluation, and visualized prediction results.
